

## RULES FOR THE STAND AREA - FITJARFESTIVALEN

1. The stand area is outside the trading house Larsen on the sea side. There will be both day and night guards during the festival. (10<sup>th</sup>-13<sup>th</sup> August)

2. Standholders will only be allowed to park in assigned spaces. This will be communicated on arrival. Please let us know the arrival time as soon as possible.

3. The stand is only registered as soon as a complete, filled in and signed application form is handed in to a representative of the festival committee. The application is binding from the day it is accepted and the standholder guarantees the stand lease. Fitjarfestivalen is not obliged to refund the stand payment regardless of the cause. Subleasing is not allowed. The sales stand is to be supervised by the standholder in the opening times. Standholders cannot pack up the stand before the end of the festival, unless otherwise has been agreed.

5. The application deadline is to be found on the application form. The festival committee reserves the right to stop registration of standholders or reduce stand area in case the stand area is full. The committee has the right to reject enrollments, decline goods and rearrange awarded stand area. The festival committee has the final right to distribution of the stand area.

6. As soon as a stand area has been awarded, you will receive an invoice by e-mail. This is to be paid before you are awarded a tent in the stand area. Cash is not accepted. If the terms of payment are not met, this will result in loss of awarded stand area. The committee then has the right to offer this area to new standholders.

7. Only goods/products that have been registered in advance can be shown/sold on the stand. It is not allowed to sell waffles or certain fresh goods from the stand. This can be discussed with the festival committee.

Sale of raffle tickets from the stand or other places in the market area is not allowed. For those stands who sell food or other fresh goods, sale devices and assortment must be approved by the Food Safety Authority in the municipality. Proof of approval must be brought to the festival ready for possible inspection.

8. Posters and such cannot be put up on the market area, outside own stand area. Trial goods and promotional material can only be handed out from own stand.

9. Demonstrations, handing out of trial good, the use of film, audio, video and such, must be approved by the committee in advance. The use of speech/song amplifiers, announcing of goods/offers on speakers on the stand is not allowed.

11. The standholder must provide all transport, mounting, demounting, packing and removing of packaging, own goods and decoration materials. Mounting must be finished and all packaging removed by Friday afternoon at 15.00. The demounting starts Sunday afternoon after all stands are closed. All must be removed at the latest, Sunday by 18.00. The delivery of goods during the festival is only allowed up till 30 minutes before opening, or at the earliest 30 minutes after closing. This is for security reasons.

12. Standholders are responsible for damage inflicted on buildings, stand equipment or persons. Standholders are responsible for own insurance of their stand. The festival committee accepts no responsibility for goods, equipment or third person belongings. In the event of heavy rain/wind or such, the standholder is responsible for securing own goods.

13. When the stand is demounted, the tent is to be returned free of decorations, nails, fundamentals and such. If standholders do not comply, the committee has the right to clean up on standholder's bill.

14. The festival reserves the right to cancel the festival or parts of it if it becomes impossible to go through with the event due to force majeure, war, terror attack, fire, water damage, or in case of big damage on buildings or technical damages to the stand area or single stands. In case of cancellations such as mentioned above, the market committee relinquishes responsibility to the standholders as a result of the cancellation. The festival is in this case not obliged to refund the advanced stand pay.

15. All outside stands are required to have a minimum of one fire extinguisher on the stand. Those who do not have one, will be imposed to acquire one before the stand opens. Controls will be completed and fire instructions will be included in the welcome material.

**We hereby wish you welcome to  
Fitjarfestivalen 2017!!! 😊**
